Why homeowners love us.

Automatic savings

Automatically helps homeowners save up to 26%** on heating and cooling costs, while keeping them comfortable with included room sensor.

Healthier home

Built-in air quality monitor that alerts you when air quality is poor and can send reminders when it's time to change the furnace's air filter.

Premium look and ease-of-use

Redesigned with premium materials and advanced engineering. Thicker glass, intuitive usability, a larger screen, new metal body, and our most advanced sensors ever.

Multi-talented monitoring

Built-in smoke alarm detection*, presence detection to alert of issues when homeowner is not home, and freeze detection to notify of sudden temperature drops.

Made for the planet

Helps lower homeowners' carbon footprint by automatically conserving energy. Designed with quality materials to last for over 10 years.
